Driver Safety Meetings

Northern Academy of Transportation Training has developed a program to assist small to medium sized transportation companies in maintaining a consistent, informative and thorough Driver Safety Meeting. The instructors at NATT can provide your company with the quality driven Driver Safety Meetings that large transportation companies are accustomed to on a regular basis. This program will be customized to your company and drivers needs. After thorough research and needs analysis, NATT will start a program that will address the immediate issues facing your drivers' safety and solve them. Once a regular routine checklist and tracking program is developed, NATT will rotate all of the issues and confront all safety concerns.

Minimum Requirements: Per client's specifications.
